

SEARCH & WORLD CUP

Perfo Weekly with Juanca · Jun 17, 9:30 | Internal use

THE DEMAND

Google Trends (copa do mundo · Brazil · past week): search interest rose from ~15 to peaks of 80 to 100. The demand is live right now.

THE NUMBERS · PAID SEARCH · JUN 1-15 VS MAY 4-18

PAID SEARCH · SESSIONS

+13%

13,520 → 15,231

PAID SEARCH · RFD

+1%

905 → 912 · registrations flat

PAID SEARCH · FTD

-5%

520 → 492

LOST IS · A QUICK CHECK

SUPPORTING QUESTION

Have you looked at **Lost IS by budget** and **Lost IS by rank** on the World Cup campaigns?

- **By budget** → demand slipping due to spend (and we have budget to cover it).
- **By rank** → bids / quality score, something we can optimize together.

QUESTIONS TO EXPLORE TOGETHER

? Are we **covering the high-intent World Cup terms** (matches, "palpite/odds", "aposta copa") while demand is peaking?

? Are we **holding first position on brand + World Cup terms** (high-converting, low-cost)?

? Are we **concentrating bids and budget around match windows** (pre-game and live)?

? Do we have **dedicated World Cup landing pages** for search, and are we **recapturing the rising organic visitors via RLSA**?
